Berlin Military Circles Attempt to Alibi Retreat in Ukraine By Asserting Forces Are Needed To Meet Expected Invasion

NAZI TAGANROG LOSSES ARE OVER 40,100 DEAD

## BULLETIN

London, Sept. 2.—(AP)—Russian troops driving forward on the Voronezh front today captured the town of Sumy, important Ukrainian regional center about 400 miles northwest of Kharkov, Moscow announced in a special order of the day.

By ROGER GREENE  
Associated Press War Editor

Adolf Hitler's battered armies were fleeing the rich Donets Basin in southern Russia today and Berlin military circles attempted to alibi the retreat by asserting that greater forces were needed in the west to meet an expected Allied invasion of Europe.

All along the 600-mile southern front, stretching from Smolensk to Taganrog, the Red armies were pushing their triumphant reconquest of the Ukraine.

Soviet headquarters said the Russians punched out gains of four to seven and one half miles, engulfed hundreds of villages including 300 in the Smolensk-Bryansk sector alone, and killed 6,000 Germans.

RAF Wellington Bombers  
Return to Rail Targets  
of Aversa, North  
of Naples

WEATHER UNFAVORABLE

## By EDWARD KENNEDY

Allied Headquarters in North Africa, Sept. 2.—(P)—The Allied air offensive against Italy has been concentrated on the toe of the peninsula for the past 36 hours and has been carried on mainly by fighters and fighter-bombers. Allied headquarters said today.

American Flying Fortresses and most medium bomber squadrons were held on the ground by bad weather for the first time in weeks. RAF Wellingtons returned to the railway targets of Aversa, north Naples, and scattered two-ton blockbusters last night, however, and American Warhawks stabbed at zinc factory at Iglesias in southwest Sardinia.

The flights of fighters and fighter-bombers over the southern extremity of the peninsula aimed their blows chiefly at Axis communications and defective establishments, already shattered and virtually paralyzed by the daily series of forays since the fall of Sicily two weeks ago.

From the Middle East, British heavy bombers struck at the Axis airfield at Grottaglie, near the Italian naval base of Taranto, in a Tuesday night raid from which all aircraft returned safely, a Cairo announcement said.

(The Italian communiqué today said limited damage was caused by Allied air raiders in the province of Naples.)

## BULLETINS

New Orleans, Sept. 2.—(P)—District Attorney J. Bernard Cocke announced today that he would ask a grand jury investigation of the killing yesterday of Willie Stevens, 36, confessed child abductor, by Detective Joseph Vigore in a police automobile.

New Delhi, Sept. 2.—(P)—Liberator bombers of the U. S. Tenth Air Force dumped a "great weight" of explosives on the railway yards at Mandalay yesterday, it was announced today in a headquarters communiqué which said "excellent results" were reported with numerous hits in the target area.

Chungking, Sept. 2.—(P)—American air attacks on Japanese shipping off Hongkong were reported today by Lt. Gen. Joseph W. Stilwell's headquarters, together with sweeps over the Yangtze river and an assault on the Canton-Hankow railway.

Day Old Baby Abandoned In Church Pew

Rankin, Sept. 2.—(P)—Police today began a search for "the woman of the red flowers"—believed to have been the young woman who abandoned a one-day-old baby girl yesterday afternoon in a pew at St. Mary's Catholic church in this Allegheny county community.

A witness told officers that shortly before the time the baby was found—by two women who entered the church to pray—she saw a woman, about 25, wearing a white dress with red flowers, enter St. Mary's church, carrying a suitcase in her arms.

The witness, Mrs. Anna Panzak, who lives near the church, said that about 10 minutes later the woman came back out of the church, still bearing the suitcase in her arms rather than by the handle.

The baby's loud cries first attracted attention to her presence in the pew. The child was wrapped in a sheet. Officials said there were no marks of identification.

The little girl was taken to nearby St. Mary's convent where nurses dressed her and summoned doctors at Braddock General Hospital said they judged the baby to be but one day old.

## Silence Hides Strategy Behind Daring Raid

## Ration Points For Creamery Butter To Be Boosted; Meat Values Are Ordered Reduced

Washington, Sept. 2.—(P)—The Office of Price Administration (OPA) boosted the ration points for creamery butter from 10 to 12 points a pound today, but simultaneously cut meat ration values. Overhauling other ration point values to meet changing conditions, OPA also increased the blue-stamp ration value of four types of canned fruit and nine canned and processed foods and lowered the value on eight others.

All revisions are effective Sunday.

OPA explained that the changes in butter rations resulted from a survey showing local shortages in the face of a dwindling supply. The boost in stamp ration values for canned and processed foods, it added, is designed to slow down shoppers' demands.

President and Prime Minister Settle Down to Discuss War-Generated Political Problems

## NO WORD FROM RUSSIA

BY JOHN M. HIGHTOWER  
Washington, Sept. 2.—(P)—In the easy atmosphere of a semi-social visit Prime Minister Churchill and President Roosevelt settled down to a discussion of war-generated political problems today while official Washington awaited some on-the-record response from Russia to Anglo-American overtures for a three power conference this year.

Despite all that the president and the prime minister have said about meeting Russia there still was no indication from Moscow as to whether the suggestion was considered favorably there, nor was there much concrete evidence in Washington thus far of success in arranging a preliminary get-together of top diplomats of the three governments.

The need for closer coordination among the three most powerful Allied nations thus remained the number one political problem pointed up by the recent Anglo-American conference in Quebec and obviously held open for further discussion in Washington.

Mr. Churchill arrived from Quebec late yesterday, accompanied by Mrs. Churchill and his staff. The only function immediately announced for his entertainment was an informal family dinner at the White House last night.

Two state department disclosures yesterday bore directly upon Russia's prospective participation with the United States and Britain in the solution of these problems. The department issued a statement saying that Russia had been consulted about and kept fully informed of military operations in the European theater of war and also "with respect to political situations arising directly out of military operations."

This latest evidence of Anglo-American efforts to work closely with the Soviet Union was coupled subsequently with a press conference comment by Secretary Hull that he considered a tripartite meeting highly desirable but had no plans for attending such a meeting himself.

## FLAGMAN KILLED

Pittsburgh, Sept. 2.—(P)—The body of M. J. Landis, 50, railroad flagman, was found on the tracks of the Pennsylvania railroad east of Homewood station yesterday. Whether he fell from his own train or was hit by another train had not been determined.

Mystery Deepens  
In Erie Tragedy

Erie, Sept. 2.—(P)—Continuing an investigation into the fatal shooting of Patrolman Paul W. Howell, 39, Sheriff Fred Lamberon said today he was awaiting ballistics reports from the Federal Bureau of Investigation in Washington before setting the date for an inquest.

Howell was found dead in his automobile early Sunday several hours after he left a social club to drive a waitress to her home. Paraffin tests of the hands of the dead officer, the waitress and her husband showed that none of the three fired the fatal bullet from Howell's service revolver, Detective Captain Roy B. Mong said.

In the absence of a fourth party, District Attorney Burton R. Laub said, "this would indicate that the gun went off from an accidental cause, perhaps in falling to the floor."

Eric Scavenius, Prime Minister Who Quit Post During Demonstrations, Declines To Act

## AIR TRAFFIC RESUMES

BULLETIN  
Stockholm, Sept. 2.—(P)—Air traffic between Stockholm and Copenhagen, suspended since Sunday, was resumed today. This also restored air traffic between this capital and Berlin, since Stockholm-Berlin planes fly via Copenhagen.

By JOHN H. COLBURN  
Stockholm, Sept. 2.—(P)—Eric Scavenius, Danish prime minister who resigned his post when Germany clamped a military dictatorship on Denmark last weekend, has declined an offer by the Nazis to form a new government, Danish refugees said today.

Scavenius, one of the few Danish political leaders to escape arrest following Sunday's bloody revolt, had been asked to head a new cabinet by Gen. Herman von Hanneken, Nazi military dictator. Other members of the cabinet who resigned in a body with Scavenius, refused even to meet Germans to discuss the situation, the refugees reported.

Von Hanneken is expected to explore further the possibility of establishing a Danish government. He is reported to be anxious to have the Danes handle the civil affairs of the country with the Nazis retaining the power, through martial law, to punish saboteurs and suppress disorders.

Sabotage was said to be continuing, though on a scale smaller than that of a week ago, and industrial slowdowns were reported prevalent throughout the country despite all German efforts to speed up production.

Several refugees reported that the Germans had ended strikes at Helsingør and Elsinore Monday by threatening to shoot every tenth worker.

Other refugees reaching Sweden in steady fewer numbers said they had difficulty in getting through the German patrols. They added that the Germans shoot at boats which fail to turn back to Denmark and one Dane related the Nazi plane pilots even shot refugees who had reached Swedish territorial waters.

## ATHLETE CRASH VICTIM

Carlisle, Sept. 2.—(P)—An airplane crash killed Second-Lieutenant Leonard Supulski, former football star, yesterday in Kekame, Neb., relatives here reported. Lieki, Supulski played football at Dickinson College here until 1942 and with the Philadelphia Eagles professional football team.

Oysters Are Fatter  
Wholesalers Report

Philadelphia, Sept. 2.—(P)—The "R" in September is bringing oysters back to dining tables—and they're nice, fat ones, say those who can afford them.

Dock street wholesalers averaged 12 of the planes were shot down in the attack on the island less than 1,200 miles from Tokyo, but admitted that damage to Japanese grounded planes resulted.

Another Tokyo broadcast to Japanese areas quoted an imperial headquarters communiqué as follows: "In regard to the enemy raid upon Minamitori Shima (Marcus) on Sept. 1, according to a later report the enemy task force consisted of approximately 160 fighters and bombers based on aircraft carriers. The force raided our air base facilities.

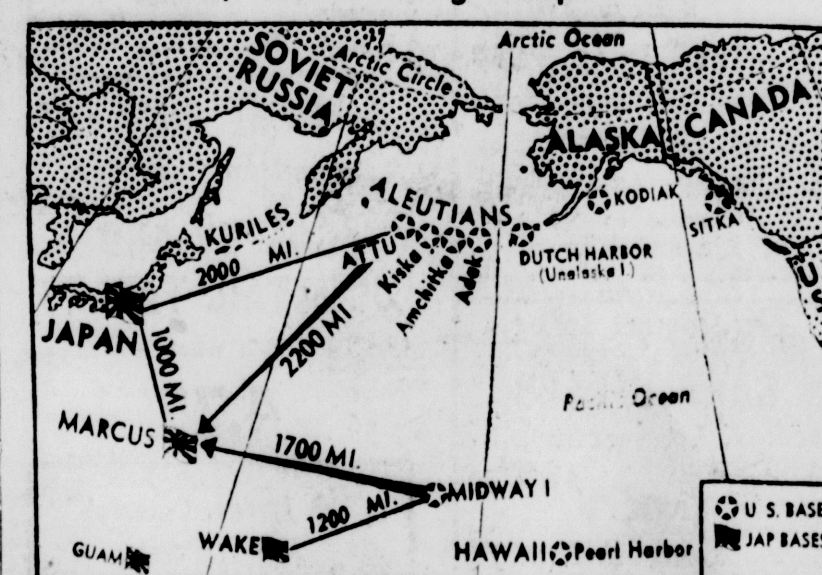

"During this operation our force shot down 12 enemy planes. Although we received slight damages on our planes, our personnel and military facilities were almost negligible."

SHENANGO SATURDAY

Greenville, Sept. 2.—(P)—Governor Martin, a retired general, and Maj. Gen. Edward C. Shanahan (Ret.), both former commanders of the Pennsylvania National Guard, will help to dedicate an amphitheatre and sports arena at the army's Shenango Personnel Replacement Depot Saturday.

The amphitheatre, accommodating 10,000 persons, was donated to the camp by the Pennsylvania Grand Lodge of Masons.

## Shells, Bombs Mangle Japs' Marcus

The map locates the Japs' big Marcus Island base—shelled heavily by U. S. warships and bombed by carrier-based aircraft—with relation to nearest U. S. bases in the Pacific. Elimination of the Marcus installations, lying four flying hours from Tokyo, would make air raids on Japan safer and easier.

Nebraska Record

Harrisburg, Sept. 2.—(P)—Governor Martin today bet 20 bushels of Pennsylvania apples he claims they are "the finest in the world"—that the commonwealth will exceed its quota by more than Nebraska in September's Third War Loan drive.

"We'll win and if Nebraska doesn't pay we'll send the Pennsylvania guard out there to collect," he smilingly told his press conference.

Governor Dwight Griswold of Nebraska has announced he is wagering a \$25 hog that his state will exceed its quota by more than any other in the nation in the war loan drive and added he would take on all comers. Pennsylvania's quota is \$1,071,000,000.

Martin studied several seconds before he hit upon the idea of accepting the challenge and waging the apples.

He explained "we could bet" these things that Nebraska does not have; naming Lancaster county tobacco, Chester county butter, Philadelphia scrapple, Lebanon county bologna, Erie county grapes, apples, mushrooms, peaches, tomatoes and cream.

Two Carriers  
Participated  
In Island Raid

New York, Sept. 2.—(P)—Two aircraft carriers which sent up "90 Grumman fighters" and "about 60 carrier bombers" participated in the American attack on Marcus Island, a Domei broadcast from Tokyo said today.

The broadcast, recorded by U. S. government monitors, declared 12 of the planes were shot down in the attack on the island less than 1,200 miles from Tokyo, but admitted that damage to Japanese grounded planes resulted.

Another Tokyo broadcast to Japanese areas quoted an imperial headquarters communiqué as follows:

"In regard to the enemy raid upon Minamitori Shima (Marcus) on Sept. 1, according to a later report the enemy task force consisted of approximately 160 fighters and bombers based on aircraft carriers. The force raided our air base facilities.

SOME DAMAGE  
TO MARCUS  
IS ADMITTED

Enemy Communique Broadcast from Tokyo Says Defenders of Outpost Suffered Casualties

## MAY BE IN PROGRESS

By the Associated Press  
Official silence hid developments today in the American sea-air assault on Marcus Island in Japan's home waters, less than 1,200 miles from Tokyo, but imperial Japanese headquarters acknowledged "some damage" and said 160 U. S. bombers and fighters joined in the raid.

An enemy communique, broadcast from Tokyo, said defenders of the strategic outpost suffered casualties as the American airplane carrier task force rained tons of bombs and shells on the island early Wednesday, and it admitted damage to ground installations and grounded Japanese planes.

The communique said 12 U. S. planes were shot down. On the heels of a navy spokesman's latest statement yesterday that the expedition against Marcus had been scheduled to strike on Sept. 1 and was "presumably in progress," Washington speculated that the raid may have been a feint to cover some highly important thrust elsewhere—similar to the Japanese feint at Dutch Harbor, Alaska, to mask a heavier blow at Midway in June, 1942.

It also was considered possible, however, that the attack may have been preparing the way for occupation. Although the island is a mere dot on the map—less than two miles long and only two-thirds of a mile wide—it could serve as a valuable outpost to jab at the enemy's vital lines of supply in the southwest Pacific.

Meanwhile, American pilots indicated that the Japanese, re-enacting their secret flight from Kiska in the Aleutians, had evacuated Santa Isabel island in the central Solomons, site of a big seaplane base at Rekata bay. Fliers returning from a raid on the base reported that for the first time no anti-aircraft fire was encountered.

Evacuation of the strong hold would be in line with Japan's apparent new policy of giving up untenable positions without a fight instead of pursuing the fanatical death-stand tactics that marked the battles of Attu and Guadalcanal.

The island had already been outflanked by American capture of both New Georgia and Vella Lavella islands.

MEAT COUPONS WILL  
BE GOOD ANYWHERE

Washington, Sept. 2.—(P)—With unprecedented numbers of livestock fattened for early slaughtering, the government cleared the tracks today for movement of more meat to civilians.

A War Food Administration (WFA) order lifted until Oct. 31 all quota limitations on the slaughter of livestock for civilian consumption save the requirement that federally-inspected slaughterers set aside 40 per cent of their weekly beef production for armed forces and war essential output.

The meaning, according to WFA: For the next two months meat ration coupons should be good anywhere in the country.

Americans Use  
Artillery Fire  
Against Japs

Guadalcanal, Aug. 31 (delayed).—(P)—The Americans opened fire with heavy artillery today for the first time in the process of softening up southern Kolombangara island for capture as fighter and bombing planes carried the war spectacularly to the Japanese by air.

The artillery was placed on northern New Georgia island, only recently taken from the Japanese in the Allied offensive up through the Solomons.

The heavy shelling began on the heels of a raid by American army Billy Mitchell two-engined medium bombers on Vila in the same area.

At the same time near Vella Lavella four army Warhawk fighter planes daringly attacked six to ten Zeros and 12 dive bombers which were assaulting our shipping. Five enemy planes were downed, and probably two others.

President Will Help  
Open War Loan Drive

Washington, Sept. 2.—(P)—President Roosevelt will make a radio address on the night of September 8 as part of a program opening the treasury's third war loan drive.

The White House said he would speak for 10 minutes, starting about 9:40 p. m.

On the same program with the president will be a group of movie actors, headed by James Cagney.

## EVANS TO BE HEAD OF TURNPIKE COMMISSION

Harrisburg, Sept. 2.—(P)—Selection of Thomas J. Evans of Lansford as chairman of the Pennsylvania Turnpike Commission was regarded as a virtual certainty today as the five members gathered for a reorganization meeting.

Edward N. Jones of Mechanicsburg said the session was arranged to follow the swearing in of Justice E. T. Loring of Export, Westmoreland county, who was named to the commission yesterday by Governor Martin.

"We'll have to find out what's going on and elect Evans chairman," said Jones, former state secretary of labor and industry, one-time state WPA chief and a member of the original turnpike commission. Martin has said Evans was slated for the chairmanship.

## MRS. MARTIN TALKS TO WOMEN LEADERS

Harrisburg, Sept. 2.—(P)—Mrs. Edward Martin, wife of Pennsylvania's governor, told women leaders in the Third War Loan drive their biggest job will be combatting a feeling of optimism that the war is already won.

"We will also have to overcome the mistaken notion that only those of us who have boys in the fight have a stake in this war and in this third war loan campaign," she declared.

Women leaders from every part of the state met here yesterday to outline plans for raising their share of the \$1,071,000,000 goal set for Pennsylvania in the Sept. 9 to 30 campaign.

## ACCIDENTAL DEATHS REPORTED MOUNTING

Chicago, Sept. 2.—(P)—Despite increased employment and high speed production, accidental deaths reported to 21 state industrial compensation commissions show an increase of only 3 per cent for the first half of 1943 over the same period last year, the National Safety Council said today.

The six months total was 3,991 accidental deaths for the 21 reporting states.

## SHEFFIELD NEWS

Sheffield, Sept. 1.—Victory gardeners, housewives, farmers and flower lovers will have the opportunity of showing the results of their labors by exhibiting at the Flower Show Saturday to be held at the American Legion Home September 3. The fair is under the auspices of the Sheffield Garden Club.

Mrs. Raymond Davidson and Mrs. William Dalton, presidents of the Mother's Clubs in the local schools wish to take this means of thanking all those who donated so generously to the Salvage Drive the past Saturday, also to Mr. Donald Brooks, local Salvage chairman for his help, and the boys and girls of the local schools, who helped to make the drive a success.

Miss Retta Pinney has returned to New York City after spending the past month with friends. John Clark, and Lt. Roy Hoyer are home on furloughs.

**FROM TREES TO PLANES**  
The E. D. Everts Hardware Co. has a very interesting window display on the topic of wood. It shows all the various tools used for national defense. The window is very nicely illuminated at night. An unusual part of the window is the snuff and chewing tobacco on the log. It has patriotic posters which tell folks to cut down all the timber they can and not let it go to waste. In this way the war effort is being aided. It shows one of the things the farmer does besides farming. It is an unusual exhibit which should be inspected by every person in the community.

## LIQUOR SALES ARE BASED ON GALLONAGE

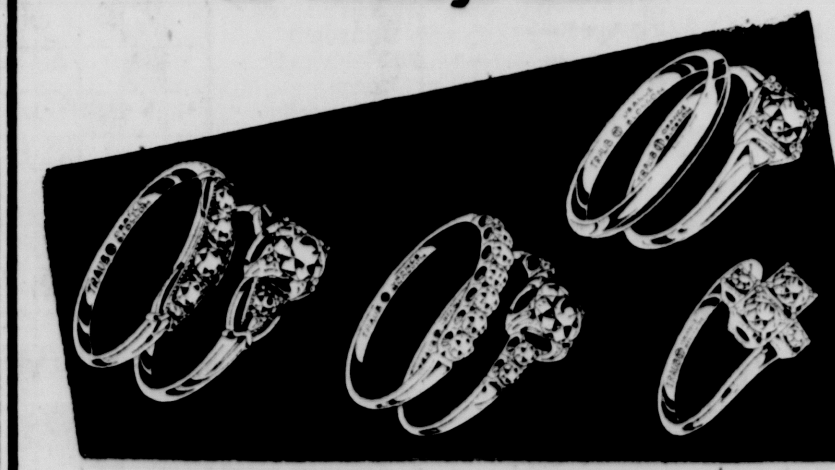

According to the latest procedure for sale of merchandise in the State Liquor Stores, sale is based on a percentage of the gallonage sold during June, July and August of 1942. Stores are allowed to sell 60% of the average gallonage sold at that time. Under the new procedure, there is to be no merchandise held back for local residents. A portion of the week's gallonage is put on sale each day at a time to be determined by the store manager, and is to be displayed insofar as is possible in plain sight, one unit to a customer, first come, first served. No discrimination is to be made as to whether the buyer be from Pennsylvania or out of the state.

## Spring Creek Township Man Is Found Dead

The badly decomposed body of Ray Haskins, aged 81, life-long resident of Corry R. D. 1, Spring Creek township, was found Wednesday afternoon in the rear of a small building on the farm where he resided alone. The position of the body and the history of the case indicated that he may have been overcome by a stroke of apoplexy while on his way to look over a small garden patch near where he was found.

Discovery of the death was made by a brother Guy Hoskins after the rural carrier had reported that mail left in the box Monday and Tuesday was still untouched yesterday. It is believed the death occurred some time Sunday.

Neighbors reported that Mr. Haskins had not been observed since Saturday when he made a brief visit to Corry. Coroner Ed Lowrey issued a certificate of death from natural causes.

Mr. Haskins is survived by his wife who resides in Meadville, and the following children: Mrs. Robert King, Meadville; LaRue Haskins, State College; Howard Haskins, in the armed forces overseas and Carol, employed on a farm in Crawford county. There is a brother, Guy, who resides in Corry, and a sister, Mrs. Belle Brown, Bemus Point.

Mr. Haskins was born in Spring Creek township October 11, 1862, and resided in that vicinity all his life. Burial was made in Pinegrove cemetery at Corry this morning.

## Kiwanians Will Picnic This Month

At the meeting of the Warren Kiwanis Club held yesterday Pete Nelson announced a picnic for the members would be held at The Box on the evening of September 22nd. This promises to be a highly enjoyable affair with a large attendance.

President Henry Ledebur also announced that a meeting of the Directors would be held Thursday evening at the home of Donald Cook, North Warren at 8:30.

The speaker of the day was Secretary Wagner, of the YMCA who gave a highly interesting talk on his trip to Europe taken several years ago. His account proved most entertaining. During his talk he paid a high compliment to the Kiwanians for the splendid backing which the club is giving to the Boys Work of the Association. "It's a good job well done and highly appreciated" said Mr. Wagner.

Guests present at the meeting yesterday were: T. A. Foster, Altoona; Jesse C. Potoff, Salem, O.; Pfc. Howard Lincoln, Camp Phillips, Kansas and Ira Dietrich, secretary of the Pittsburgh Kiwanis Club.

## Leaders Are Chosen For Church Music

It will interest parishioners and many friends in the community to learn that Miss Evelyn Wolstencroft will begin her duties Sunday as organist and director of the junior choir at First Methodist church.

Miss Wolstencroft, daughter of Mr. and Mrs. Clement Wolstencroft, has been organist at First Baptist church for nearly nine years, is an accomplished musician and much in demand as accompanist for vocal and instrumental soloists. She served as accompanist for two of the annual choir festivals held so successfully by local church units and has been actively associated with local musical activities since her student days.

The work of directing the adult choir of the same church will be assumed by Miss Twila Hoover, who comes to Warren as director of choral music in the public school system.

## Personal Paragraphs

Mr. and Mrs. Henry Larson and son Jimmie, of Mt. Jewett, are spending some time camping on the shores of the Allegheny river near this city.

Miss Joanna L. Mackay is at home at 311 Poplar street for a few weeks vacation, after having attended the summer session at the University of Rochester, where she will return on September 15. She has as her house guest this week Miss Margery Ann Scott, of Rochester, her former roommate at Oberlin College.

Pvt. Leslie G. Fobes, of the local Pennsylvania State Police, will attend funeral services Friday of his uncle, Fred P. Fobes, machinist for the Bessemer Railroad at Albion, who died suddenly on Monday.

Friends of Dr. H. F. Clawson will be pleased to learn that he is getting along very nicely at the Warren General Hospital where he recently submitted to a surgical operation.

John Cashmere, of Sheffield, who received an injury to his hand early last Saturday morning in the wreck of his large tank truck on the Tioga highway, has been admitted to Warren General Hospital for treatment of an infection which has set in the injured member.

## TIMES TOPICS

### PLEASURE BAN OFF

An increase in automobile traffic about the city was noted today as many who have not been driving their cars brought them out and put them into service with the lifting of the ban on pleasure driving.

### NURSING CADET

Miss Kay M. Hanson, daughter of Mr. and Mrs. Sheridan Hanson, Sr., of Warren R. D. 3, left Tuesday for Warren, O., to take up her studies as an army nursing cadet. Graduated from Warren High School in 1941, she has been employed at Wayne State Hospital for the past two years.

### JOHNSON IS NAMED

A recent bulletin received by the County Council for Defense suggests that a chairman of Transport and Traffic Control be appointed in each Council throughout the state. Warren heretofore has had no one acting in this capacity and the Council has named Clifford Johnson to the post.

### STILL AT WORK

Enumerators for the Polk Directory Company are still at work in the city and the work of compiling the book is expected to be done within a few weeks. The book will also contain the directories of the various boroughs in the county as well as a complete township directory and will be as complete as is usual with the Polk Directory Company publications.

### NO MORE MINUTEMEN

Announcement has been made at Harrisburg that there will be no more Minutemen (State Guard Reserves) formed in the state. It is felt that danger from invasion is growing more and more remote. The groups already formed will continue to function and become more and better drilled. The Warren group has been meeting four times each month and is in fine shape.

### PARKS ATTRACTIVE

Warren's parks at the present time are highly attractive as all shrubbery has been trimmed during the past few weeks and trees pruned ready for fall. The lawns have all been cut on an average of three times monthly during the entire summer. Perhaps never before have the parks been used to such an extent as they have during the past summer due to the fact that trips could not be made to outlying picnic points.

### NEGOTIATIONS ARE ON

The West Ridge Bus Company has been at an endeavor to secure better terminal facilities in Warren and to that end have been negotiating for a new waiting room. The building now occupied by the Studebaker Automobile Sales Company is being considered and some action may be secured. The bus company at times has as many as nine buses in the station at one time and there is much parking space about this building.

### RETORT ASKED FOR

One of the retorts made available by the State for the work of community processing of vegetables and fruits has been applied for in this county. As yet it has not arrived but when it does come it will be placed at a central position where it will be available for groups interested in canning, of large amounts of fruits and vegetables.

### SCHOOL IS OPENING

Pupils of the Clarendon borough school will report on Tuesday morning for the beginning of classes which marks the opening of the new fall term. It is believed the teaching staff with the exception of the office of principal, no one having been secured to take the place of Orval Borton, who has resigned to join the Youngsville High School faculty.

### PAPER HIKES PRICE

Explaining to its readers that the main reason for increasing the price of its newspaper was to curtail its sale because of a paper shortage, the Emporium "Press-Independent," a weekly, increased its subscription rate from \$2 to \$3 a year and newstand copies from five to 10 cents each. The increase, effective Sept. 30, does not apply to persons in the armed services, it was announced.

### PLANNING BUSY SEASON

Men in charge of the Junior Commando groups in the city expect soon after school starts to get the boys and girls at work once more. During the vacation period it was almost impossible to assemble the groups but with the opening of schools it will be easier to get in touch with the boys and girls. Colonel Russell Elliott stated this morning that an effort would be made to interest young women in the movement to become leaders of various formations of the young war workers.

### WOULD REPLACE AUDITORS

The recent act applicable to this county passed by the State Legislature whereby a Comptroller could be elected in counties of the Seventh Class is of especial interest as it would replace the Board of Auditors. Election of a comptroller could be effected by a petition signed by 25 of the voters of the last election or a petition signed by 100 voters could have the issue placed on the ballot. As yet no reports have been received by any county in the state taking up the matter.

### TUBES ARE SHIPPED

Plenty of folk in Warren people evidently brush their teeth if one is of judge by the number of empty tooth paste tubes that have been shipped out of Warren. For a time this work languished until Chairman W. T. Corbett took hold of it and now shipments are going forward every month. As the tubes are almost pure tin this scrap is most valuable. Over 270 pounds have been shipped in for processing.

With PAC officials reporting a record turnout for the Tuesday night mixed swim in the "Y" pool, it is stated today that only one more activity remains on the summer schedule but plans are already well under way for continuation of a weekly event throughout the coming winter season. Final event for summer will be another mixed swim at the usual hour on Tuesday night of next week.

**AT CONFERENCE**  
Rev. Martin Hamlin, pastor of Calvary Baptist church, will be in Erie over the coming weekend to attend the annual sessions of the Middle East Baptist Conference, opening Friday evening in Grace Baptist church and concluding Sunday. He will be accompanied by Mrs. Hamlin and their son, Charles. Lay delegates elected to represent the local congregation include Mr. and Mrs. Arvid Danielson, John Ahlgren, Mr. and Mrs. N. B. Haglund, Mr. and Mrs. B. E. Shellen.

**NOTE RED CARDS**  
Every person should make a note of the red cards posted on homes in their neighborhoods, according to Harry Christenson, who has been in charge of placing the pump tanks about the city. Over 700 have been given out in the city and average one to every fourth house. Each house where one of the tanks is placed is marked with a red card. Mr. Christenson reports that the tanks are highly efficient and one of the East Side merchants who had one placed in his store tested its usefulness by using it to wash his store windows. All of which is hardly according to Hoyle.

## NOTICE OF APPLICATION FOR CHARTER

NOTICE IS HEREBY GIVEN that an application will be made to the Court of Common Pleas of Warren County on September 7th 1943 at 10 o'clock in the forenoon, E. W. T., under the provisions of the "Nonprofit Corporation Law" of Pennsylvania, for the charter of an intended corporation to be called "WARREN COUNTY WAR FUND, INC.", the purposes of which are as follows: Securing subscriptions and raising funds for the support of charitable, philanthropic, and educational organization whose activities are carried on in the County of Warren, State of Pennsylvania, or any section thereof, and for the support of such organizations whose activities are carried on in connection with national war efforts or national emergencies and which organizations have been approved by the Corporation as to purposes and management; to plan, promote, organize, manage, supervise, conduct, and coordinate, directly, indirectly, or in collaboration with such organizations, local, statewide, or national, the solicitation of contributions and raising of funds by united campaigns for the support of such organizations; determining the distributions to be made and making distributions of funds so raised to and among such organizations; passing upon, approving, or disapproving budgets of such organizations; determining upon the amount, shares, or quotas of appeals for support of such organizations which should be solicited from residents of the County of Warren, State of Pennsylvania, or from residents of particular sections thereof; rendering more effective the work of such organizations; and purposes germane to those specifically stated. The proposed Articles of Incorporation have been filed in the office of the Prothonotary of said Court and are open to the inspection of the public during the business hours of such office until the date fixed for said application.

## ASSAULT ON MARCUS ISLAND

According to DeWitt MacKenzie, Associated Press War analyst, "The mystery surrounding our assault on Japan's Marcus Island is of course purposeful and a part of the high command's strategy, but we are warranted in regarding this operation as a colorful advertisement that Uncle Sam is rapidly approaching the time when he can do business on a big scale in the Pacific."

"This doesn't mean that we are to expect the opening up of a grand offensive immediately," he cautions. "It does mean that our strength in the Orient has increased to the point where our fighting forces are wearing their caps cocked at a rakish angle. That strength is cumulative and is mounting more rapidly each day."

"All sorts of speculation is going the rounds as to the exact meaning of this startling move in which our task force has boldly sailed in and taken a punch at a point in the very perimeter of the defenses of the Japanese mainland. One guess is about as good as another, but there are some things which we can pin down."

"For instance, we know that Marcus Island, while only a pimple on the face of the Pacific, is highly important to the Japs for both defense and offensive. Lying as it does some 1,200 miles from the Japanese mainland, it's a vital listening post—a sentinel to warn of the approach of danger. It also is a strong air-base, and is a stepping stone between Japan proper and her islands in the southwest Pacific. That's part of the spade work which naturally would be done in preparation for a big-scale offensive. It's a step in the preparation of the big pair of pincers which the Allies are going to clamp onto the Japanese in due course—an attack from the south and from the Aleutian islands in cooperation with a drive against Burma by United Nations forces under Lord Louis Mountbatten."

"The psychological effect of the Marcus Island expedition already has been top-hole. We have succeeded in scaring the stuffing out of the little men of the rising sun who yesterday rushed their spokesmen to the microphones to warn the public that their island kingdom was in peril. The radio spread the news—and it was quite accurate—that we could have attacked the Japanese mainland had we seen fit."

## COMPLICATED TAX QUESTIONS

Having in mind that official instructions must be accurate even at the expense of clarity, probably it would be difficult for Treasury experts to express more comprehensively the requirements of the income tax law they flung Congress into enacting.

So it is to the law, rather than to the administration, that we must look for relief from such verbiage as this, which is intended to tell taxpayers whether or not they have to file an estimate Sept. 15 of the tax they will owe Dec. 31:

"A declaration must be made by every citizen or resident of the United States if he comes within any of the following groups:

"(1) Single or married but not living with spouse at the date prescribed for the making of the declaration (whether or not head of a family) if he had for 1942, or reasonably expects to have for 1943—

"(a) gross income of more than \$270 from wages subject to withholding; or

"(b) gross income of \$500 or more from all sources if more than \$100 of such income is from sources other than wages subject to withholding.

"(2) Married and living with spouse at the date prescribed for the making of the declaration, if he had for 1942 or reasonably expects to have for 1943—

"(a) gross income from wages subject to withhold which, when added to his spouse's gross income from such wages, exceeds \$3500; or

"(b) gross income from sources other than wages subject to withholding which, when added to his spouse's gross income from such sources, exceeds \$100, and also his gross income from all sources exceeds \$624 for 1943 or the aggregate gross income from all sources of both spouses amounts to \$1200 or more for either 1942 or 1943.

"(3) Individuals, regardless of material status, who were required to file an income tax return for 1942 and whose wages subject to withholding for 1943 are reasonably expected to be less than such wages for 1942.

"The foregoing rules apply also to residents of Canada and Mexico whose wages are subject to withholding. Other non-resident aliens are not required to file declarations."

Well—do you have to file or don't you? Why? Are you sure?

Senator Walter F. George is interested in suggestions from the public for clarification, simplification or other improvement in the internal revenue status, including the income tax law.

## Getting Impatient

## Washington in Wartime

(First Of Two Articles On Civil Service Methods)

By JACK STINNETT

WASHINGTON—The House Civil Service Committee, headed by Robert Ramspeck (D-Ga.) is hopping mad.

In its extensive investigation of the government employee set-up, it finally has come around to the report-card system. Once each year, all federal government employees are subjected to what is known as the "Report of Efficiency Rating."

Each of now more than 3,000,000 employees (exclusive of armed forces personnel) receive these report cards, and they can be fired, promoted, demoted or given salary raises on the basis of their "efficiency ratings." This applies to every one from charwomen to \$10,000-a-year executives.

Three copies of the "efficiency ratings" have to be filed. That means over 9,000,000 sheets of good stock white paper. Just short of a million copies of the 32-page "Efficiency Rating Manual" have to be issued, which means tons more of precious paper, thousands of man-hours spent in reading, preparing and tabulating the reports, and probably millions of dollars a year lost to the taxpayers.

MEMBERS of the Ramspeck committee, who cannot now be quoted by name, already are saying that the next session of Congress will positively pass a law to shear off reams of this needless red tape.

The "Efficiency Rating Report" gives the so-called rating official (always the person who is just one jump out of his underling's job)

the privilege of making a check, minus, or plus after such queries as how is their hiring on? Attention to Broad Phases of Assignments; Attention to Pertinent Detail; Accuracy of Operations; Accuracy of Final Results.

The "check" means adequate; the minus mark, weak; the plus, outstanding.

Just how are you going to explain by those definitions a floor-mopper's "attention to the broad phases of his assignment"; or where the difference comes between the "accuracy of operations" and "accuracy of final results" is just a couple of the minor mysteries in the questionnaire.

IT'S true the Civil Service Commission has set up a system of checks and balances.

If a stenographer or division chief (the grading applies to all federal workers not appointed by the President and some of those who are so appointed, but also are under Civil Service) doesn't like his grade card, he can appeal.

If the rating official can't talk him (or her) out of it, he (or she) can go before the reviewing official and if he (or she) isn't completely cowed by that time, there still is the efficiency rating committee.

Since all three of these persons or groups already have put their stamps of approval on the original report card, they are in the same spot as the baseball umpire who already has shouted "Out." If he changes his mind, it's an admission that he didn't know his business in the first place.

## Hollywood Gossip

By ROBBIN COONS

HOLLYWOOD—The piano in the rehearsal hall tinkled out "Pretty Baby" and a line of chorines in slacks or shorts, carrying parasols, cavorted in time to the tinkling.

But for once that wasn't what I'd come to see. I was there to witness the return to rhythm of that old master, Charlie Winninger.

"I haven't done this," said Charlie, "since 1924—when I danced in 'No, No, Nanette.' Am I going to show up Astaire? Heh, all I'm hoping is that I can get through it."

In "Broadway Rhythm" Winninger plays an old-time actor who helps a bunch of youngsters put on a show in a barn. While he's directing them, he does off and dreams that he himself is on the stage once more. That's how it was that Charlie—59, white-haired, a bit pudgy in the waistline—was sitting there, in old white trousers and shirt, an old straw hat cocked back on his head, gamely waiting his call from Jack Donohue, the dance director.

It came. Charlie got up, took his place beside pretty little Gloria DeHaven, his partner, and danced. He looked serious about it, studious, as if he were counting—"one-two-three, bounce, one-two-three, shuffle." He didn't give Astaire anything to worry about, but he got through it.

HE CAME back and set down, perspiring a little but not puffing, "I kept in pretty good shape," he said. "Swim every morning, work in my garden—this isn't anything."

It wasn't anything, after all, compared to what the movies made him do when he first tried them, back in 1914. By that time he had done everything in show business, working with the "Winninger Family Novelty Show."

His father, who had been a violinist with Strauss back in Vienna, had settled 40 acres of Wisconsin timber land and built the log cabin where Charlie was born. But the needs of a growing family had sent them all back to show business. "I guess I learned everything except wire-walking," said Charlie.

IN 1914 he was in Los Angeles in vaudeville, doing a comedy and acrobatic act, when the slapstick movie tribe saw him as prime material. Mack Sennett wanted him, but he signed with another outfit directed by a man who believed actors were made to get laughs—at any cost to the actors.

"Once," Charlie reminisced, "I had to lead a couple of bears down the street. I was swabbed all over with honey and for a while I didn't know whether I'd get my arm chewed off. I was always having trouble with bears. One day I had one on a leash tied to my wrist, doing a scene. Suddenly he lit out, pulling me with him, and I landed on my face three blocks away."

"Finally they threw so many pies in my face and shot so many Roman candles at me I just quit and went back to vaudeville. It was several years after his hit as Captain Andy in 'Show-bus' that Winninger finally returned to Hollywood (which was mostly over its former bear complex) and became a leading character star and, as of today, dancer.

The committee in charge of the County Fair held a meeting at the Outing Club last evening. It was decided to spend \$3500 in amusements this year and the program promises to be an out of the ordinary one.

On the street market this morning corn had dropped to 35 cents the dozen; apples were 5 cents the pound; potatoes were 65 cents the bushel and cabbage had dropped to 6 cents. Chickens sold for 46 cents the pound.

The Protected Home Circle has invited the Clarendon and Sheffield circle to join with them at their annual picnic to be held at the Outing Club. The affair promises to be a big one with a program of events that will provide much pleasure.

Farm Agent Reist is authority for the statements that Warren County Crops will be somewhat under normal this year. The continued drought has affected many of the crops.

The last concrete on the piers of the new island bridge was poured yesterday. Following the pouring of the driveway the concrete will be allowed to age and then the bridge will be thrown open for traffic.

In 1933

The Warren Relief Association is busy canning fruit for the needy folk of the community and has made an appeal for empty jars to be filled. They also ask for children's clothing of which there exists a need.

The committee in charge of the Youngville Community Fair is arranging a series of special events so that every day will have a real feature. Horse pulling contests, archery matches and other stunts are being arranged.

"Weinies on Wednesday" will be presented by the Salem Evangelical Christian Endeavor Society at the church Friday. The affair promises to be lots of fun and the characters have been carefully cast.

Pupils of Mrs. Charlotte Lohnes gave a recital yesterday at the Philomel Club that promised to be a most enjoyable event. All of the young pianists acquitted themselves with credit to their teacher and themselves.

Saturday evening a concert will be given at the Elks home by the St. Petersburg, Fla., municipal band. The band has been at the Worlds Fair at Chicago and through the efforts of Ed Walker was persuaded to stop off here for a concert.

## From where I sit...

by Joe Marsh

"Jeep Nerves"—that's what Dan O'Neill calls the jumpy way some folks react to the strain of wartime living.

Not that Dan blames 'em. When you work 12 hours a day and travel in crowded busses—live in trailers and put up with inconveniences—it's only natural to get tense and irritable.

"Folks must learn to relax," says Dan, "and take it easy."

And Dan thinks he has the formula. Soon as he's through at the shop he comes straight

home, picks out the comfortable chair and pours himself a tall, cold glass of beer.

Then he sips it—slowly and appreciatively—like good beer should be enjoyed.

And by the time that glass of beer is gone, Dan says his disposition is as good as new... and the day's work seems well worth tackling again tomorrow.

It's a real effective formula. I know; I've tried it!

## ANNIVERSARY OF WASHINGTON'S STEWARD AND HIS FAMOUS TAVERN IN OLD NEW YORK

revolutionary Patriot Samuel Fraunces and his famous tavern, now an historic shrine in New York.

Fraunces' Tavern, one of New York's most famous Revolutionary shrines, celebrates its 180th anniversary this year and has just marked the 167th anniversary of the discovery of a plot to poison George Washington. The plot was exposed by its patriot host, Samuel Fraunces.

To count just another of its numerous connections with historic events it has also just marked the anniversary of its bombardment by a British warship in 1775 and the 1776 "scrap drive" of Samuel Fraunces which stripped it of leaden sashweights and other metal equipment which were immediately used to make munitions for the American forces.

The Tavern has been restored and is used as headquarters of the New York State branch of the Sons of the Revolution. It was a fine mansion in Colonial New York built in 1719 and was converted into a tavern by Samuel Fraunces in 1763. It became the social center of the town, the meeting place of notables of the day, and its proprietor was regarded as the most famous of colonial hosts.

Great social events of the town were held in its famous Long Room which was the scene many years later of the historic ceremony of Washington's farewell to the high officers of the American army, at the close of the Revolution.

In the Tavern, the Sons of Liberty held their meetings before the Revolution and when our Independence was declared Fraunces commenced highly confidential intelligence work for the Continental army. Whether he actively served as a soldier is in doubt because

he was fifty years old in 1776, but a "Samuel Francis" was carried on the rolls of at least two famous regiments. Fraunces did a great deal of work in relieving the hardships of Revolutionary prisoners and probably helped many of them to escape. At any rate, his services were recognized after the war by a grant of 200 pounds by the State of New York, a vote of thanks and a gift of \$2,000 by Congress and a certificate of recommendation by General Washington.

His exposure of the poison plot against Washington is believed to have been responsible later for Washington's selection of him as the steward of the first "White House" when Washington became President of the United States and established his official residence in New York. He was also steward of the second "White House" when the seat of Government was transferred to Philadelphia, and he retired from that position in 1794 and died in the following year.

In 1776 Fraunces' daughter, Phoebe served as Washington's housekeeper in New York and she learned that one of the guards, Thomas Hickey, was involved in a plot to assassinate the Commander-in-Chief by poisoning him. Hickey is supposed to have sought her aid but while pretending to sympathize, she informed her father who warned Washington.

The Tavern has served the public in New York for many generations and at the present time a ground floor has been leased as a public restaurant and tap room where tankards of foaming beer and ale are dispensed as they were during the Revolutionary period.

## Urgent Appeal To Graduate Nurses Issued By Red Cross

An urgent appeal to graduate nurses to register as instructors for Home Nursing Classes, is being made by the local Red Cross Home Nursing Committee. Nurses who are still practicing or those who may be retired are urged to volunteer. Qualified nurses living in Warren County and Borough are asked to call Red Cross Headquarters and register immediately.

Several of the instructors who taught various Home Nursing classes in Warren last year have entered active service. Some have moved from town and many others have added home responsibilities. Consequently the need for new volunteers is urgent.

The longer the war lasts, the more acute will be the shortage of

doctors and nurses on the home front. And the more important it will be for those in each home to be trained to take care of their own sick. Graduate nurses are the only persons thus qualified to give proper instructions.

Nurses who register at once will be eligible to attend a one day Institute for Home Nursing Instructors which will be held at Red Cross Headquarters this month. Miss Abbie Whidden, a Nursing Consultant from National Headquarters, will be present and take part in the program. Several local instructors will conduct the discussions and give demonstrations. Nurses who plan to enroll for this worth while war work are asked to call 2826 and register at once.

## Warren Lost Population In Two Years

Floyd Chalfant, secretary of Commerce for Pennsylvania, reported yesterday that for the first time Pennsylvania has passed the 10,000,000 mark in population making the Commonwealth the only state with the exception of New York to top that figure. In spite of the gain by the state as a whole many of the sub-divisions, Warren among them, have lost in population due to the demand for labor in the larger cities. The increase in the state population is more than half that recorded in the decade between 1930 and 1940. Men and women in the armed forces were counted as part of the permanent population.

Warren county shows that in 1940 the population was 42,789 and as of August 1st, 1942 it had dropped to 40,127. Venango county also showed a drop from 63,958 to 62,386. Other counties showing a drop in this section were Potter from 18,201 to 16,451; Forest from 5,791 to 5,289; Elk from 34,443 to 32,550; Clarion 38,410 to 37,842; Clearfield from 92,094 to 87,878.

The population boost was determined through an analysis of birth and death certificates and school records. The latest changes in the population were unevenly distributed ranging from a gain of 94,758 in Allegheny county to a loss of 28,027 in Lackawanna county.

pleased with the response which the organization is receiving in the local churches. Gideon speakers have already spoken in the United Brethren church, the Saron Lutheran church and Free Methodist. A representative from Bradford will bring the message in the Methodist church at 11 a. m. Sept. 12th which is conference Sunday.

## YOUNGVILLE NEWS

Youngville, Sept. 1—Mr. and Mrs. Kenneth Haight who moved some time ago from Youngville to a farm not very far from Chancellors Valley entertained Thursday last the members of the Youngville Sunshine Club and a few of their near by neighbors at chicken dinner. After the delicious meal guests were entertained with games and contests conducted by Mrs. Crull a neighbor of Mrs. Haight. It a spirit of cooperation the ladies of the Sunshine club have been piecing quilts. Each month the blocks for a quilt are completed and the quilt is drawn by some member. Mrs. Edna Haulpin drew the quilt at the last meeting.

## GIDEON SPEAKERS

The Gideon organization is remembering Youngville and is

day evening. They visited Mr. and Mrs. John Kofod his sister, and his father Herman Peterson. They had the pleasure of helping Mr. Peterson celebrate his birthday. He is to be congratulated on his good health and is busy all the time.

Willard Munson and wife were home for a furlough. He is located at Van Dorn, Miss. He returned Monday last, Aug. 23. He visits his father Alfred Munson and sister Mrs. Vicander.

Our consolidated school will commence another year's work on Sept. 7, 1943. Three school buses draw outside pupils here.

At recent church services in the Irvine Presbyterian church tribute has been paid William Cruell and Julian Stewart. They have entered the service of our country and their names have been placed on the church honor roll.

## IRVINE

Irvine, Sept. 1—August is pretty good for birthdays in Irvine today. Mrs. Amelia Randanilla and Mrs. Nora Jackson are passing another milestone in their life. Monday Aug. 16 Bunny Randanilla celebrated his 14th birthday with a party in the evening. Sunday last Aug. 22nd Mary Keller celebrated her 13th birthday and Monday the 23rd Rev. Jack, Methodist minister, passed another milestone and Wednesday Aug. 25th Mrs. Alice Luce and Carl Kennedy passed their birthdays. Congratulations to

### Catholic Daughters Plan Busy Season

Court Warren, No. 834, Catholic Daughters of America, conducted its first meeting of the fall season at eight o'clock last evening in the K. of C. clubrooms, with Mrs. Willis Cooney in charge. A program for each month in the coming year was briefly outlined by Miss Sylvia Lucia, who represented the activity committee. It was also announced that the court will again award a cedar chest completely filled with linens and that tickets have been placed on sale.

A public play will be presented by the court some time in October, with Mrs. J. A. Bevevino in charge. It was announced that Mrs. Nell Eggleston and Miss Mary Jane Hoskins will be in charge of the next meeting, to be held in October. Names of the committee under their direction will be announced at a later date. At the close of the business meeting, Mrs. N. J. Mangus conducted an installation ceremony in the absence of the state regent, Miss Frances Maher, of Kane. Mrs. Cooney was reinstalled in the office of grand regent.

To conclude the pleasant evening, a delightful luncheon was served by the activity committee under the co-chairmanship of Miss Sylvia Lucia and Miss Mary Mills.

### Weldbank Couple Has Anniversary

About 100 guests gathered in the home of Mr. and Mrs. Louis Vicini at Waldbank Tuesday evening to help celebrate the anniversary of the marriage ceremony performed 25 years ago yesterday in St. Clara's church in Clarendon by the late Father T. M. O'Hern.

A happy surprise of the evening was the presence of their two sons, Robert and Donald, home together from the Portsmouth Navy Yard for the first time in two years.

Decorations throughout the home were the gift of the Back to Nature Club which held its flower show at Clarendon Saturday night and offered the couple its choicest fall blooms. Some of these were used for an attractive refreshments table from which guests were served.

Along with best wishes for 25 more happily wedded years together, the couple were presented many gifts of silver, cut glass, money and a shower of cards.

### IRWIN-BURLAMACHI ANNOUNCEMENT MADE

Friends have received from Mr. and Mrs. Fred Irwin, of Buffalo, news of the marriage of their son, Fred, of Miss Virginia Burlamachi, of Somerville, Mass., on June 29 in St. Anthony's parish at Somerville. The bride was attractive in a long white satin gown with train and a lace cap to hold her veil and carried white roses with ribbon streamers.

Mrs. Irwin is a shipfitter's helper at the Boston Navy Yard. "Fritz", as he is known to friends, is a seaman first class and gunpointer first class, now on his second trip somewhere on the Pacific. He writes that he is well and hopes to see his friends in Warren soon.

### FAMILY GATHERING

A very happy family gathering was held at the Clinger cottage at Tidoute honoring Pvt. Guy L. McIntyre, of Camp Robinson, Ark., on furlough with his father, Ralph McIntyre. Chicken dinner and a birthday cake, along with many gifts, added to the young soldier's pleasure in the occasion.

Guests included Mr. and Mrs. Marshall Johnson and sons, Danny and Dick, of Grand Valley; Mr. and Mrs. Aulittman and children, Clarendon; Mr. and Mrs. J. W. Byers and daughter, Maxine, Mr. and Mrs. Karl Johnson and family, Ralph McIntyre, Russell Johnson, Dorothea Kernick and Lois Hildum, Tidoute; Felicia Passara, Connellville.

Mrs. Alice Savage, of Washington, D. C., is the guest of her mother, Mrs. Carl Moore, 222 Canton street.

Earl R. Small, of Madison avenue, has gone to Pocono Haven, in the Poconos, for several weeks rest and recuperation.

# Warren and Youngsville Are Ready for Grid Opener

## Fast Contest Anticipated At Russell Field Saturday With Kick-off Scheduled At 2:30

Saturday afternoon at 2:30 the curtain will rise on the football season of 1943 when the kick-off in the game between Warren High School and the Youngsville High School will be played. This contest has always been a feature of the early football season and Youngsville has always presented the Dragons with some good opposition.

Coaches Leidig and Pussaro have had their boys working out this week and have already whipped together a football machine that shows signs of being up to the usual high standard. Coach Pussaro, of Youngsville is opening his

## Forge-Erie Gunners Game Is Attracting Interest of Fans Throughout Entire Section

The forthcoming benefit game between the Erie Gunners and the National Forge at Wilder Field, Irvine, September 12, is attracting attention throughout the district. The championship contest is expected to attract fans from Warren and outlying districts. Plans are being made to handle one of the largest crowds ever to assemble on Wilder field.

The field and stands will be placed in shape to assure a fast and interesting game. This work will fall on the NFO players, who besides engaging in games are giving their own time in working on the field. Each player is being asked to give two hours of his own time each night in preparing for the game. Incidentally, these boys, who for many years, have been giving of their time in playing ball so as people of Warren and vicinity might get a little recreation have done so with little or no compensation whatever. The work is being done so that the team may get one chance to engage Erie Gunners in a championship game. For the Sunday game the Gunners are asking a guarantee of \$175. To meet this amount the fans are asked to buy tickets, even though they may not be able to attend, as it is all for a good cause.

Just to show what fans think of this game, an announcement was made at Kane during the Kane Forge contest and fans there asked that tickets be sent them in order that they may purchase their allotment. Erie is sending along a large following, and fans are expected from Jamestown, Corry,

## Kane Independents No Match For Forge In Short Contest

Forge defeated the Kane Independents, at Kane, last evening by a score of 13 to 0 in five innings. Kane secured the services of Gibson, former PONY league pitcher and several players from James City, but found out, as most teams of late have, that when Forge power is turned on something must give way.

Gagliardi was in fine form, allowing but two hits in four innings and striking out six batters. Hines twirled the fifth inning, holding the Hilltoppers hitless and striking out one batter.

Pittsburgh, Sept. 2.—(P)—The draft has been taking his best grid prospects so Pitt Coach Clark Shaughnessy yesterday did a little drafting of his own.

## Louis Will Be At Shenango On Sept. 20th

A number of Warren men at Shenango Personnel Replacement Depot will have an opportunity, Monday, September 20 to see Sgt. Joe Barrow, better known to boxing fans all over the world as Heavyweight Champion Joe Louis, back in the ring for three rounds of exhibition boxing.

The Detroit Brown Bomber will go the three rounds with Sgt. George S. Nicholson, his old sparring partner, in the Amphitheatre and sports arena at Camp Shenango as part of a program which will stress the importance of physical fitness in the army.

Sgt. Nicholson is now a boxing instructor at Mitchell Field, New York.

Cpl. Walker Smith, more popularly known as "Sugar Ray Robinson," world's welterweight title claimant; Pvt. George J. (Jackie) Wilson, former world's welterweight champion, and Cpl. Robert J. Payne, trainer, will also appear with Sgt. Barrow.

A capacity crowd is expected to fill Shenango's new sports arena for the show. In case of inclement weather, the program will be presented in a regimental Recreation Hall.

In addition to giving the three round exhibition bout, Sgt. Barrow will talk to the men of Shenango on the importance of physical fitness, stressing the fact that a "well conditioned army is a fighting army."

## SPORTS ROUNDUP

By HUGH FULLERTON, JR.

New York, Sept. 2.—(P)—The public is always what? . . . After the starting gate at Aqueduct bustled down Wednesday and the favorite was left at the post in a "flag" start, the racing commission ordered the tracks to have a spare on hand hereafter. . . . But that didn't help the customers who had bet nearly \$62,000 on Light Lady. . . . And while the fight fans still were cheering Henry Armstrong's decision to retire for good after his dismal showing against Ray Robinson, Hank up and decided to go through with one more against Slugger White in Los Angeles because the contract already had been signed. . . . Wonder if these fellows ever stopped to think that they have an unwritten contract with the public, too—with a clause that says "if you can't give the kind of show we pay for, get out?"

## What a Pal, Al

Al Simmons took his seven-year-old son for a swing around the American League this summer. After waiting for some time while his dad either decorated the bench or tried with little success to get a few hits, the youngster asked: "Pop, do you get as much pay as the other players?" . . . Simmons allowed that he got about the same as most and maybe a little more than some, then inquired what prompted the question. . . . "Well, I've been watching," said the kid, "and you don't seem to do as much as they do."

## One-Minute Sports Page

If you need a chilling breeze some day, ask Clark Griffith about Rip Sewell's "new" blooper pitch. . . . It was only about 40 years ago that Griffith used to kid the batters until they were ready to murder either the ball or the pitcher and then toss up a soft one underhand and watch 'em break their backs swinging before it got there. . . . Richard Bromberg, son of the New York World-Telly boxing writer, is four years old today and Poppa Lester had an "extra" printed to tell his colleagues about it. . . . Salt Lake City and Ogden sports writers will toss a dinner for Dick Romney September 9 to commemorate his 25 years as Utah State athletic director. Sorry we can't be there. . . . Bobo Newsum is a Senator again and maybe this time they'll give him the job for which he is best qualified—speaker.

## The New Champ

When Pvt. Joe Hennessy of Camp Roberts, Calif., a former writer on outdoor topics, attended a recent Minnesota reunion at Paso Robles, it was only natural for him to enter the tall story contest. . . . After whoopers that were long as well as tall, Pvt. Hennessy arose and remarked: "Boys, I'd rather be taking a 20-mile hike in the army any day than be catching those big muskies in Lake of the Woods." . . . They awarded Joe the prize without further discussion.

## Cards Win Suspended Game With Pirates and Top It Off By Capturing the Nightcap

By JUDSON BAILEY

Associated Press Sports Writer

The business of picking up games in the National League at a given point and playing them to completion at later dates still is causing headaches for the figure filberts.

The senior circuit has had four contests in this category, it may be remembered, two of them protested games involving the Phillies and two others suspended games which were halted because of Sunday curfew laws in Boston and Pittsburgh July 18.

The protested games were entered in the standings at the time they were played, but when League President Ford Frick ordered the contests resumed later from the point of argument, the Phillies won the game they had been charged with losing to the St. Louis Cardinals and lost the game they had been credited with winning from the New York Giants.

This called for corrections in the standings. The suspended games were not included in the standings at the time, but one of them was finished yesterday, and as it turned out, it might just as well have been counted a legal game at the time it was rescheduled.

This contest was the second game of a double-header between the Cardinals and Pittsburgh Pirates, which was halted after seven innings with the Redbirds leading 6-5. When the two final frames were run off neither team made a move and the July 18 score became the September 1 score.

What did happen was that Rip Sewell of the Pirates, who had entered the contest in the seventh inning in a relief role and returned

## The Airplane Grows Up

AP Features

IDEAS have changed a lot since the mythical Icarus tried to fly by attaching wings to his body with wax. Not only would Icarus marvel at today's airplanes, but he would be astonished at the space there is to be covered. The "Airways to Peace," exhibit at New York's Museum of Modern Art, shows how man experimented with flying devices as his knowledge of the world grew.

Leonardo Da Vinci sketched flying machine modelled above. He advised testing it over a lake, with pilot wearing wire casks around the waist to prevent drowning, if device failed.

## LEGEND

Mythology has it that Icarus soared too near the sun, which melted his wings' wax fastening. He drowned in the sea.

READING & WRITING  
By Edwin Seaver and Robin McKoun

**LARRY LESUEUR**, correspondent for the Columbia Broadcasting Company, was in the Soviet Union from October 1941 to October 1942. In October 1941 the Germans had almost reached Moscow. In October 1942 they were being driven out of Stalingrad. Mr. Lesueur considers these twelve months to have been of crucial importance, not only for the Russians, but for the entire course of the war. He writes about them in his book "12 Months That Changed the World."

His assignment in Russia was not to make long reports on military strategy. Rather, his job was to pack into his daily broadcasts fresh, colorful and revealing bits of news and human interest material which would help Americans to know what life was like in the Soviet Union in wartime. He follows the same technique in his book. He has a reporter's gift of looking and listening; he reports vividly and clearly what he saw and heard.

Among the many people with whom he talked was Major Valentine Grizdubova, one of the three women who wear the gold star of a "hero of the Soviet Union" and the only woman to have led an all-male squadron of heavy night bombers. "There are many women in the Soviet Union who are fighting for their country," she told him. "They are especially good in the air. The youngest girl in the Red Air Force is seventeen, and the oldest is a woman navigator of forty-five."

The barricades had been removed in Moscow long before Lesueur left, but every morning the streets were filled with great piles of wood, brought in by voluntary woodchoppers for the purpose of heating houses for which there was no longer coal. One day the entire corps de ballet turned out to help load wood on the trucks at the riverside. The next day it was announced from the stage at the ballet that the premiere ballerina, Messer, was unable to appear. She was too stiff from hauling wood. That gives us an idea of what the Russians mean by an all-out war!

"Angel of the Navy" by Joan Angel; "The WAACS" by Nancy Shea; "Yes Ma'am" by Auxiliary Elizabeth R. Pollock—these are a few of the new books that show American women are going to war. One of the most amusing—as well as informative—of such books is "All-Out Arlene" by H. I. Phillips (soon to be made into a motion picture) which tells of Arlene Applegate who left her good job as model secretary for the advertising agency of Batson, Munch & Twigg, to join the Waacs because, she figured, the only way to win a war was to get in there and fight.

"Paris—Underground" by Etta Shiber, the true story of two women who helped some 200 English soldiers to escape out of France, will be an October selection of the Book-of-the-Month Club. The Club is also sending its members for the same month "C/O Postmaster" by Corporal Thomas R. St. George. Corporal St. George is with the American forces in Australia, and his book is a colorful and humorous account of his experiences in the army.

What It Means

By **ROBERT M. FARRINGTON**

THE summer level-off in war production is over and the torrent of guns, planes and other munitions is expected to increase steadily through the rest of the year.

This is not due to the elimination of some one single defect in the production picture; it is a general improvement of a number of things which caused a plateau in May and June production and set leaders worrying publicly about complacency and absenteeism.

While these contributed to the unsatisfactory figures, they were not an important factor. Actually, there was no drop in production. We made less than the schedules called for (which were a five per cent increase over the previous month), but May's production was equal to April's, and June's two per cent more. July shows a considerable improvement and this upward trend is expected to continue.

**Production Figure High**

Aircraft manufacture was less than the Army and Navy asked for but still a tremendous production figure. Some of the reasons that we did not reach our goal for planes were design changes, faulty parts, manpower shortages, poor distribution of raw materials and failure of engine manufacture to keep up with demand.

At the time that President Roosevelt spoke of our making 125,000 planes in a year, we had not tested our theories of plane design in battle. As we pitted our best against the Messerschmitt and the Zero, we found advantages and weaknesses in every American plane. Simple improvements were made quickly without interrupting the fast pace of construction. But when a radical alteration in design, or a new plane, became necessary, production had to suffer while the changes were made.

**Weight Bases**

Naturally, the specific nature of the changes in our planes which slowed production this summer is a strict secret, although it is known that a number of improved models are in the works. Because it is unfair to chart production of planes on numbers alone (a trainer can be turned out in a fraction of the time it takes

to build a four-engine bomber) the War Production Board now figures volume on a weight basis—and is not too satisfied with that method.

For instance, in the time it takes to build 10 of the big, super-bombers perhaps 100 fighters could be made. But 10 of those monster ships in the right spot might be worth several hundred fighters, so neither man-hours nor weight alone tell the whole story of plane production.

If we had been foolish enough to freeze all designs when we broke out, we could have easily raced to the original goal of 125,000 planes a year. The Germans fell into this trap when they were trying to get vast numbers of planes quickly. The RAF had fewer planes, but more up-to-date in design, and consequently blasted the Luftwaffe out of the sky in the Battle of Britain.

**Changes Made**

Airplane engines, too, have had to be changed constantly to keep ahead of the enemy. We may find later that the improvements made this summer in our engines (which slowed mass-production manufacture) were a deciding factor in utterly smashing the air forces of Hitler and Hirohito. After struggling for months with the new heart-breaking engine, Packard has just announced the company is in production with it. This engine and our P-51 fighter, some airmen believe, will be the super-champ of the air, absolutely unstoppable in any language.

Cut-backs in requirements of such weapons as tanks, certain anti-tank guns, machine tools, etc., beat down the true production figures because none of these cut-backs were taken into account when weighing the actual production against schedules.

If the goal for tanks was say, 5,000, but the Army reduced this to 2,000, a production rate of 2,500, 25 percent more than the Army actually wanted, would figure as a 50 percent "drop," because actual production was only half the original schedule.

Now that some of the major cut-backs are out of the way and design changes fairly well jelled for the present, production can pick up again and the succeeding months of the year will show encouraging increases, it is believed.

Buenos Aires, Sept. 2.—(P)—Commenting on President Roosevelt's request that neutral countries refuse refuge to "war criminals," the newspaper La Prensa indicated today that Argentina would adhere to "her traditional attitude" of granting asylum to political leaders.

Indianapolis, Sept. 2.—(P)—A taxi cab driver brought to police headquarters today a 27-year old woman who, he said, had told him she wanted to give herself up as the slayer of Corporal Maoma L. Ridings, 32 year old Camp Atterbury WAC.

Stockholm, Sept. 2.—(P)—Swiss dispatches said today that 450 fires were still burning in Berlin after Tuesday night's RAF block-buster raid and that estimates of the dead ran as high as 5,000.

(From Page One)  
ned beans—fresh shelled, green or wax and fresh soy beans—were reduced, probably because fresh vegetables now are in demand.

Frozen fruits and vegetables went up and, OPA said, the "supply is still far below the buying demand." It explained "a fairly sharp and general upward point revision is necessary in order to syphon off some of the demand into other foods in larger supply."

Some of the point reductions and increases, OPA said, were made to speed or to slow sales of certain can sizes which aren't balancing with the same products packed in other sizes. For example, the point value of No. 2 1/2 can tomatoes was reduced while other tomato sizes remained unchanged.

Dried beans, peas or lentils were cut "because of increased production and a corresponding increase in the allocation to civilians." The group was reduced from four to two points per pound for dried beans and to one point a pound for dried peas or lentils.

## Control Center Staff Names Committee to Stage Incidents

Practically every member of the staff turned out last night for the regular practice session at the Warren control center, the business being preceded by taking of a photograph on the steps of the municipal building by Photographer Everett Stoke.

The usual handling of incidents was dispensed with for this meeting and announcement made by Commander Forest Waite that another session will be held on Wednesday evening, September 15.

All centers in the state have been asked to prepare incidents for submission to the state control center and the following chiefs of services were named as a committee to prepare those of the local unit: Arthur Langdon, Fire Chief D. G. Kropf, Police Chief George Hahn, Lt. Mike Evan, Harry Christensen, C. W. Barvis, John Fenstermacher, Nat Drake, Lt. Victor VerMyer, Kermit Forsgren, Harold Passinger. This group will prepare its ideas for submission to the entire local staff on September 15 and, if accepted, the material will then be forwarded to the state defense council.

Mr. Waite expressed his gratification at the evening's turnout and also with the continued faithfulness of the staff in the face of constantly improved good news from the fighting fronts and the lessening of danger of attack from enemy sources. At the same time, he stressed the great importance of keeping strictly confidential any such information as might pass through control center channels in case of enemy attack by raid or sabotage.

The remainder of the program was devoted to sound films shown by Philip Coyne and depicting training of officer candidates for the Army Air Forces, how an air raid warden may best benefit his community and a movie of an average control center operating under the stress of an actual air raid.

The center officials had an interesting visitor this week in the person of Ralph E. Schoonmaker, lieutenant in the Cleveland, O., police department and controller in the Cleveland Control and Warning Center.

## TIMES TOPICS

### APPLY FOR LICENSE

Glenn LeRoy Eschenbach and Agnes Elizabeth Cochran, both of Kinzua, made application for a marriage license before Register and Recorded O. E. Loper on Wednesday.

### BICYCLES RECOVERED

Police officers yesterday and last evening recovered two bicycles that had been taken about town. Due to the registration system in vogue at the station house the bicycles were properly restored to their owners.

### EXCAVATES FOR HOUSE

Frank Rensma, operator of the Brokenstraw Airport, west of Youngsville, has the excavation completed for the foundation for a house that he contemplates building just west of the hangar.

### MEET IN WILLIAMSPORT

Producers, distributors and consumers of milk are invited to attend a meeting of the state milk control commission to be held in Williamsport, September 10. At this meeting a general price hearing for District 13 in which Warren is located will be held.

### NOT REPRESENTED

Due to gasoline shortage and other restrictions Warren was not represented at the meeting at Erie Tech last evening when football coaches and other officials were to be given the official interpretation of changes in scholastic football rules this year.

### PREPARE FOR CONVENTION

Warren Sunday School workers are looking forward to the State Convention which will be held at Huntingdon October 12, 13, and 14. More than 1000 delegates from all over the state will assemble there and instructors and leaders from all portions of America will take part in the program.

### EXPECT BUSY DAY

Chautauqua Lake resorts are anticipating one of the largest crowds of the season for the Labor Day holiday at the various places on the lakeshore. The removal of the ban on pleasure driving is expected to bring out huge crowds from all over this section with motorists to have a fling such as they have not enjoyed this summer. However from all indications there will not be any too great an amount of gasoline to be bought at stations in this section.

### WELL KNOWN HERE

Friends here who remember the several speaking engagements of William "Bill" Haskell, New York newspaper executive, will read with interest an Associated Press dispatch from Peekskill, N. Y., reporting that Haskell and his caretaker escaped without injury when fire broke out at night in his summer camp. He was awakened by the blowing of an automobile horn in the garage, where he was from the blaze apparently expanded the horn mechanism and caused it to sound. According to the press wire report, the camp was completely leveled.

I haven't bought many picnic things this summer, but we're planning a picnic in the back yard over the holiday and I was surprised at Loblaw's complete assortment of the things I wanted.

Yes, if it's available you'll usually find it at Loblaw's. We're not picknickers, but I wanted to get our shopping done early to avoid the rush of the holiday buying.
